LIVE STREAMING:

Video Live Streaming is iTV (Internet Television). At *StreamingBest* we digitally record programs and stream them via all major browsers and smart phones. Many viewers will see your broadcast via their computers and each day, more and more people view iTV via their Internet accessible flat screens TV's.

VIDEO ON DEMAND:

StreamingBest also provides online archives of your programs so that site visitors can view your programming on demand. 24 hours a day 7 days a week!

HOW IT WORKS:

StreamingBest provides an easy to use platform that comes with everything you need to launch Live or On Demand broadcasts in minutes. Simply upload, videos and have the automation send them directly to your TV Channel Playlist where it is scheduled for broadcast or play immediately.

STREAMING BEST PLAYERS:

Streaming Best also provides a collection of players that put your video programming up front and center! Visit our website at <http://www.streamingbest.com> to view live demos of these features.

- Embedded Player
- Pop-up Player
- Pop-in Player
- Transparent Player
- Subtitle Enabled Player
- Player Link
- eBay / Yahoo Store / FaceBook Player
- Webcast Player with Slides
- TV Channel Playlists
- Pay-Per-View Modules

GENERATE REVENUE WITH OUR PLATFORM:

StreamingBest presents the most powerful Pay-Per-View solution available online, where you keep 100% of the profits. That's right. You keep all of it. We do not require a cut of your sales. Plus, our Pay-Per-View Module includes the following features:

- Single Ticket - Allows the viewer to purchase one video at the price you set.
- Playlist Ticket – Viewers make a one-time payment to access a list of predetermined videos.
- Global Ticket – Provides access to more than one predetermined Playlist.
- Password Protected – With this feature a password is needed to access the broadcast.
- Free Ticket – Viewer will be able to play the broadcast free of charge.

MINIMUM SYSTEM REQUIREMENTS

All system requirements will be reviewed by our technical support team during your install, but basically, what's needed is a fast computer, good camera, good lighting and a fast Internet connection. Below we provide specs in detail.

No special equipment is required, if you are using a webcam. If you plan to stream from a camcorders, DVD or from set-top boxes, etc. You will need the following:

- Strong Internet connection.
- Flash Media Live Encoder, which is available for both the MAC and PC. [Click here to download a free copy.](#)
- An analog converter to send information from your video device to your computer
- We'll review your system and advise what is needed. Many of our clients are pleasantly surprised to find that they already have most everything they need.

DESKTOPS (MAC or PC):

P4 3.0 gig or Core2 Duo 1.7 and above / 512K -1gig ram / 40gig hdd / USB 2.0 / 16bit Sound Card / DVD ROM / Available PCI Slot / Windows 2K – XP / Vista not preferred but allowed.

LAPTOPS:

(Same as above) However, desktop allow for greater reliability and a wider range of option cards.

VIDEO CAPTURE SOLUTIONS:

There are many video capture cards on the market today; therefore, it is impossible to test them all. The important thing to understand is 'the better the capture card; the better the quality of your stream'. Equally important is the card used for the video input of your camera and switcher.

Adequate lighting during the taping is also very important for a clear sharp picture.

Direct Capture to FireWire Port (Desktop or Laptop should also be considered. Keep in mind that FireWire performance may vary depending on the manufacturer specs.

OUTPUTS

Your computer should have a camera with DV out connector. If not, the following tools can provide the proper connection.

- ADS Tech Pyro A/V Link (Desktop or Laptop with available FireWire Port)
- Osprey 100 and above <http://www.viewcast.com/products/osprey-cards/osprey-100>
- Osprey on Amazon: http://www.amazon.com/gp/offer-listing/B001S45WT6/ref=dp_olp_new?ie=UTF8&condition=new
- Many others to choose from based on your budget.

CAMERAS

- Webcams or Cameras with DV or AV outputs.
- Digital Cameras can be inexpensive and work great.

SOFTWARE

- Adobe Flash media Live Encoder (FREE) - <http://www.adobe.com/products/flashmediaserver/flashmediaencoder/?sdid=FCOSC>

*NOTE: To complete a client’s setup and/or trouble shoot, if required, remote control software will be installed on the client computer, allowing technical support personnel to provide assistance.

If this seems like too much technical information, don’t worry. Our experienced staff takes pleasure in meeting your every need.

YOUR OWN NETWORK:

Have you ever wanted to own your own TV Network? With Streaming Best you can and it won’t cost you an arm and a leg. In fact, you can have it for pennies on the dollar. Plus, with a Streaming Best’s iTV Network you can recognize additional revenue.

STREAMING BEST
gives you the tools to
own your own iTV
Network!
